

Payment Details 8/17/2016

A few important notes to keep in mind about payments:

1. All lunch and After School Care (ASC) payments are to be made in advance. We do understand that there may be occasions when you would need to utilize these services in an emergency situation.
2. Lunch payments for grades PS -12 can be combined on one check and sent in to any of the three school offices. Checks or cash should be clearly marked with your child's name. If payment is for multiple children, please specify how much should be posted to each child's account. If not specified, payment will be divided equally between all children in the household. Student lunch balances can be accessed through the EZ School Apps Parent Portal (information found at <http://setonschools.org/lunch-and-family-accounts>). Debit or credit card payments are accepted through this site.
3. Lunch payments should not be combined with any other payments.
4. Fees for other services that include (but are not limited to) Afterschool Care (ASC) and help desk are also accessible through the EZ School Apps website. These payments may also be turned in to any of the three school offices and must be clearly marked with your child's name and whether it is for ASC, help desk, etc. Debit or credit card payments for these fees are also accepted through EZ School Apps.
5. Payments less than \$5 cannot be accepted. Exact cash payment only can be accepted. We do not keep petty cash in the schools so the secretaries are unable to make change.
6. Checks are made payable to Seton Catholic Schools.
7. Cash and checks will not be accepted without being in a clearly marked envelope indicating what the payment is for.
8. Please remember that even if you qualified last year for free or reduced lunches, you need to submit an application this year to qualify. If you haven't filled yours out yet and think you might qualify, please do so ASAP!
