

At Seton Catholic High School we believe that clubs and activities are a vital part of a student's education. Extracurricular activities foster growth and development as a well-rounded young person. Here at SCHS we hold a club period once a week on Thursday during the school day. Students attend a club fair at the beginning of each year to explore all of the activities that are available to them. They are then encouraged to sign up for a club that interests them. These clubs meet from September through the beginning of May.
